**SCILLA SIBIRICA**

## Scilla Sibirica

These early flowering bulbs produce an abundance of lovely blue flowers. They are most useful for planting in a rockery, in borders, or in front of a shrubbery, where they will naturalise freely.

12 for 45 c. 25 for 90 c.  
100 for \$3.25

## Snowdrops (Galanthus)

These well known and well liked flowers reappear very early each spring. The bulbs are very hardy, and they will thrive in any part of the garden, especially in shaded places. Early planting is recommended.

12 for 60 c. 25 for \$1.20  
100 for \$4.50

## Grape Hyacinths (Muscari)

Exceptionally effective when planted in rock gardens and amongst other plants in beds or in borders. They are perfectly hardy and reappear early each spring for many years.

12 for 35 c. 25 for 70 c.  
100 for \$2.50

**GRAPE HYACINTHS Muscari**

## Some Heralds Of Spring for your garden

These pretty early flowering bulbs are very effective in rock gardens, along borders or planted in masses in the lawn or near the shrubbery.

They are perfectly hardy, and will reappear each year to remind you that spring is on its way. Scilla Campanulata is an exception to the rule, and do require some protection from frost (like crocuses), and they flower about the end of April.

Depth of planting: Chionodoxa 2½"; Snowdrops 3"  
Grape Hyacinths 4"; Scilla Sibirica 4"; Scilla Campanulata 4".

**CHIONODOXA**  
Glory of the Snow

## Chionodoxa

Glory of the Snow

Producing beautiful blue flowers with white centers, Chionodoxa are exceptionally suitable for planting in rockery and borders. They are very free flowering and naturalise freely.

12 for 35 c. 25 for 70 c.  
100 for \$2.50

## Scilla Campanulata

These bulbs are not real hardy, a temporary covering of leaves or other material on top of the ground where these bulbs have been planted is essential to protect them from frost. They produce large tall spikes with many florets to each spike.

## SINGLE EARLY TULIPS (short stemmed)

Single Early Tulips flower early in spring along with narcissi and hyacinths, at a time when their beautiful gay colors are greatly appreciated. Their stems, are not too tall, but very sturdy, so that they are ideal for planting in places exposed to strong winds.

**COULEUR CARDINAL**, deep glowing scarlet  
**SUNBURST**, yellow flushed red  
**KEIZERSKROON**, red with broad yellow margin.

Doz. \$1.30 100 \$9.50

## COTTAGE TULIPS (long stemmed)

With their large flowers on tall graceful stems, the Cottage Tulips listed are equal to the best of Darwin Tulips. They are highly recommended for planting outdoors.

	Doz.	100

## General Mixture

for Naturalizing

### LARGE TRUMPET DAFFODILS

12 for \$ 1.10    100 for \$ 8.—

### SMALL CUPPED NARCISSI

12 for 95 c.    100 for \$ 6.75

### POETAZ NARC. L'INNOCENCE

12 for \$ 1.30    100 for \$ 9.50

## DAFFODILS OR NARCISSI

The large trumpet varieties are usually called daffodils, the smaller types narcissi. They thrive in any garden, in any place, light or shaded, flowering each spring for many years if left undisturbed. Plant as early as possible, in well loosened ground, the large types about 6 inches deep, the smaller types 4 inches. Be sure to apply a temporary covering of leaves or other material on the ground where the bulbs have been planted, to protect them from frost the first winter.

## GIANT TRUMPET DAFFODILS

	Doz.	100
<b>AEROLITE</b> , perianth primrose-yellow, trumpet clear yellow, <b>NOVELTY</b>	\$ 1.90	\$ 14.—

<b>L'INNOCENCE</b> , poetaz, white perianth, yellow cup (as illustrated) 4-5 flowers to each stem . . . . .	1.30	9.50

# Giant Hyacinths

**HYACINTHS**, the most sweet-scented of bulbous flowers, give a beautiful and long lasting display of colors early in the spring. Plant 8 inches deep in rockery, in beds or in borders.

**HYACINTHS**, are also excellent for blooming indoors in pots, after these have been buried in garden, or kept slightly moist in cold cellar from 8 to 10 weeks, for proper rooting.

<b>BISMARCK</b> . . . . .	delicate sky blue
<b>KING OF THE BLUES</b> . . . . .	indigo blue
<b>LADY DERBY</b> . . . . .	light pink
<b>LA VICTOIRE</b> . . . . .	bright carmine-red

# Next Spring Dutch flowers *in your garden!*

**Crocuses in colors**  
12 for 50 c.      100 for \$3.50

## GIANT FLOWERING CROCUSES

The inexpensive crocuses are indeed worth your special attention. Their flower buds appear in March, and as soon as the weather becomes mild enough for them they unfold to the lovely spring flowers we all like so well.

Planted about 3½ inches deep in well loosened ground they will flower each spring for many years. Cover the ground with a temporary layer of leaves when newly planted, to protect the bulbs from frost the first winter.

	Doz.	100
